

Display village turning heads

agent's report

THE public has given Pelican Waters' newly completed display village a huge tick of approval, with near-record visitor numbers flocking to the stunning showcase of modern housing innovation.

Located on Marmont St in the estate's popular Northern Lakes precinct, the village provides an exciting one-stop-shop for prospective buyers where they can draw inspiration from a collection of Queensland's finest builders.

The contemporary, award-winning designs of builders including Dwyer Quality Homes, Morcraft Homes, GJ Gardiner, Ausmar Homes, Stylemaster Homes, Planet Homes and Coral

Homes are now all open for inspection.

General manager of development for Pelican Waters, Hamish Pressland, said response to the display village had been exceptional, with huge volumes of traffic flowing through.

"It has created a real buzz around Pelican Waters as the perfect place to view the latest cutting edge building ideas and exciting new trends in interior design in one convenient location," Mr Pressland said.

"Created by Queensland's finest builders, the designs on display epitomise what the Pelican Waters lifestyle is all about."

The display village is located near Pelican Waters' latest prestige waterfront land release The Passage which has attracted huge buyer interest since launching in late January.

The Passage sets a number of new benchmarks for Pelican Waters, with its 32 exclusive, direct ocean-access waterfront home sites situated on the widest canals in the estate. Residents enjoy the longest and most expansive northern and southern water views to be

found anywhere on the Sunshine Coast.

"Offering a mixture of residential, waterfront and deepwater access lots, this is the final opportunity to secure a new-release homesite in the Northern Lakes precinct," Mr Pressland said.

The Passage is just minutes from the future Pelican Waters Town Centre, Pelican Waters Golf Course, Caloundra CBD, beaches and a range of primary and secondary schools.

Visit the sales centre at the corner of Bond and Marmont Sts from 9am to 5pm or phone 5492 4888.

The display village is open daily from 9am to 5pm.
